- Highlight: **Medical Silicone Vestibular Shield, Adjustable Medical Vestibular Shield, Breathable Orthodontic Functional Appliance**

### Product Description

Adjustable Medical Grade Silicone Vestibular Shield for Customizable Breathable Protection

#### Product Description:

Our Product

The Vestibular Shield Protector is made with safe and non-toxic materials, ensuring that it does not cause any harm to the user. The appliance is customizable to fit the user's mouth perfectly, providing maximum comfort while in use. The Vestibular Support Guard is also portable, allowing users to easily carry it with them to their sports activities. It is easy to store, occupying minimal space in a backpack or sports bag.

The Vestibular Aid Shield is highly durable and reusable, making it an economical option for individuals who regularly engage in sports activities. It is designed to withstand wear and tear, ensuring that it lasts long. The appliance is made with quality materials that are resistant to impact, making it a reliable protector for the vestibular system.

The Vestibular Shield Appliance is a must-have for anyone who engages in sports activities that require physical contact or movement. It provides reliable protection for the vestibular system, ensuring that the user is safe from injury while in action. The customizable fit and non-toxic materials make it a comfortable and safe option for users of all ages.

Investing in the Vestibular Shield Appliance is a wise decision for individuals who prioritize their safety and well-being during sports activities. It is a reliable and durable option that provides maximum protection for the vestibular system. The appliance is easy to use, easy to store, and highly portable, making it a convenient option for individuals who regularly engage in sports activities.

## Features:

**Product Name:** Vestibular Shield Appliance

**Hypoallergenic:** Suitable For Individuals With Allergies

**Non-Toxic:** Made With Safe And Non-toxic Materials

**Adjustable:** Can Be Adjusted For A Snug Fit

**Durability:** Long-lasting And Reusable

**Usage:** Protects Vestibular System During Sports Activities

**Also known as:** Vestibular Shield Protector, Vestibular Support Guard, Vestibular Stability Appliance

## Technical Parameters:

Technical Parameter	Description
Product Name	Vestibular Aid Shield / Vestibular Support Guard / Vestibular Stability Appliance
Usage	Protects Vestibular System During Sports Activities
Adjustable	Can Be Adjusted For A Snug Fit
Breathability	Allows For Proper Air Flow
Portable	Easy To Carry And Store
Material	Medical-grade Silicone
Hypoallergenic	Suitable For Individuals With Allergies
Design	Customizable Fit For Maximum Comfort
Durability	Long-lasting And Reusable
Non-Toxic	Made With Safe And Non-toxic Materials
Lightweight	Does Not Add Extra Weight Or Bulk

## Applications:

The Vestibular Stability Appliance is produced in Shenzhen, China, and is certified by ISO, CE, and FDA. It is made from high-quality materials that are long-lasting and reusable. The product is lightweight and does not add extra weight or bulk to the user, which makes it comfortable to wear for long periods. The breathable design of the Vestibular Support Guard allows for proper air flow, which prevents the user from feeling too hot or uncomfortable during sports activities.

The Vestibular Shield Appliance is customizable, which means that it can fit any user comfortably. The product is packaged in plastic bags and boxes that ensure it is delivered in excellent condition. The delivery time for the product is 72 hours, and the payment terms are negotiable. The product's supply ability is 630 technicians, and the minimum order quantity is negotiable.

The Vestibular Stability Appliance has several product application occasions and scenarios. It is ideal for individuals who participate in contact sports such as football, basketball, and hockey. It is also suitable for individuals who participate in non-contact sports such as running, cycling, and swimming. It can be used by athletes of all ages and skill levels who are concerned about their vestibular system's protection during sports activities.

The Vestibular Support Guard is customizable, which means that it can be designed to meet the user's specific needs. This product is an essential balance protector shield that offers stable support for the vestibular system. It is ideal for individuals who have had previous vestibular injuries or those who are prone to vestibular injuries.

The Vestibular Shield Appliance is an essential product for anyone who is concerned about their vestibular system's protection during sports activities. It is customizable, durable, and breathable, which makes it comfortable to wear for long periods. The product's price is negotiable, which makes it affordable for individuals and teams. The Vestibular Stability Appliance is an essential product for anyone who participates in sports activities and wants to protect their vestibular system from injuries.
