

High Translucency Layered Zirconia Crown And Bridge With Natural Esthetics And Precise Fit For Dental Lab Restorations

Our Product Introduction

for more products please visit us on adidentalab.com

Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: ADL
- Certification: ISO/CE/FDA
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: Plastic bags and box
- Delivery Time: 72 Hours
- Payment Terms: Paypal or T/T
- Supply Ability: 630 Technicians

Product Specification

- Material: Layered Zirconia
- Translucency: High
- Strength: High
- Fit: Precise
- Esthetics: Natural
- Ease Of Milling: Easy
- Resistance To Chipping: High
- Durability: Long-lasting
- Precision Of Margins: Accurate
- Shade: A1/A2/A3/A3.5...16 Shades
- Highlight: Layered Zirconia Crown And Bridge, High Translucency Natural Esthetics, Hypoallergenic Biocompatible Dental Restoration

Product Description

Product Overview

Layered Zirconia Crown and Bridge restorations from our China dental lab combine a high-strength zirconia core with a graded, multi-layered surface that closely mimics the natural translucency and color gradient of real teeth. This layered structure delivers a restoration that is both highly esthetic and highly durable, suitable for anterior and posterior cases.

Our Product

One of the key benefits of the Layered Zirconia Crown and Bridge is the accurate precision of margins. Each unit fits snugly against the patient's teeth for a comfortable, secure fit, while the high translucency and natural shade gradient produce a bright, lifelike appearance that blends seamlessly with the surrounding dentition.

The restoration is milled from layered zirconia and finished with strict CAD/CAM quality control, providing exceptional strength, wear resistance, and long-term durability. The material is hypoallergenic and biocompatible, making it a safe option for sensitive patients. Our lab is ISO, CE, and FDA certified, with more than 13 years of experience and 630 skilled technicians supporting dental clinics and dental labs worldwide.

Key Features

Product Name: Layered Zirconia Crown And Bridge

Material: Layered Zirconia

Translucency: High

Strength: High

Shade: A1/A2/A3/A3.5...16 Shades

Fit: Precise

Hypoallergenic: Yes

Biocompatibility: Excellent

Technical Specifications

Product Name	Layered Zirconia Crown And Bridge
Material	Layered Zirconia
Translucency	High
Flexural Strength	Up to 1200 MPa
Precision Of Margins	Accurate
Fit	Precise
Shade	A1/A2/A3/A3.5...16 Shades
Resistance To Chipping	High
Durability	Long-lasting
Biocompatibility	Excellent
Indications	Single Unit Or Multi-unit Bridges
Application	Anterior And Posterior Restorations

Applications & Clinical Use

The Layered Zirconia Crown and Bridge is suitable for single crowns and multi-unit bridges, anterior and posterior restorations, implant-supported crowns and bridges, and full-arch or partial restorations. Typical scenarios include repairing decayed or traumatized teeth, replacing missing teeth, improving the appearance of discolored or misshapen teeth, and restoring teeth after root canal treatment.

The precise fit is achieved through layered zirconia and meticulous CAD/CAM production, reducing the risk of fractures or chipping. Combined with excellent biocompatibility and natural esthetics, it is a reliable, long-lasting choice for dental professionals seeking high-quality restorations.

Packaging, Delivery & Payment

Layered Zirconia Crown and Bridge is packaged in plastic bags and box, and the standard delivery time is 72 hours. Payment terms are flexible, with Paypal or T/T available. ADL has a supply ability of 630 technicians, ensuring timely delivery for dental clinics and dental labs worldwide.
